# **2013 - SNOWDEN REVELATIONS**

THE UNITED KINGDOM AND UNITED STATES OF AMERICA ARE SPYING ON MILLIONS OF PEOPLE, IN MYRIAD WAYS.

THIS UNDERMINED THE RIGHT TO PRIVACY AROUND THE WORLD.

BUT A NEW PROBLEM WAS CREATED BY THE REVELATIONS: MISDIRECTION.

# GSMA: GOAL

Our overarching goal is to enhance the privacy and free expression of civil society and actors for change in 13 ODA countries by providing civil society with knowledge, tools and resources to investigate and respond to surveillance technologies, and to build momentum for policy change to ensure strong human rights protections in national surveillance laws.

# HOW?

1. Collaborate and build the capacity of organisations on surveillance technologies.
2. Determine how and where these technologies are deployed.
3. Share this knowledge with actors for change.
4. Develop targeted recommendations for policy change.

Lack of information  
surveillance affects  
society groups

Message:

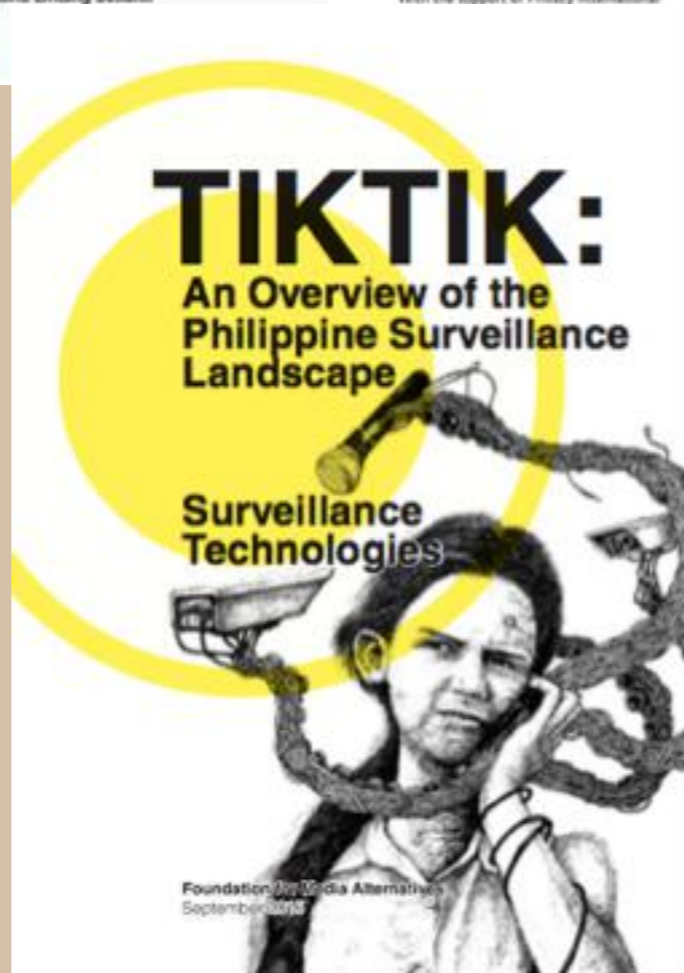

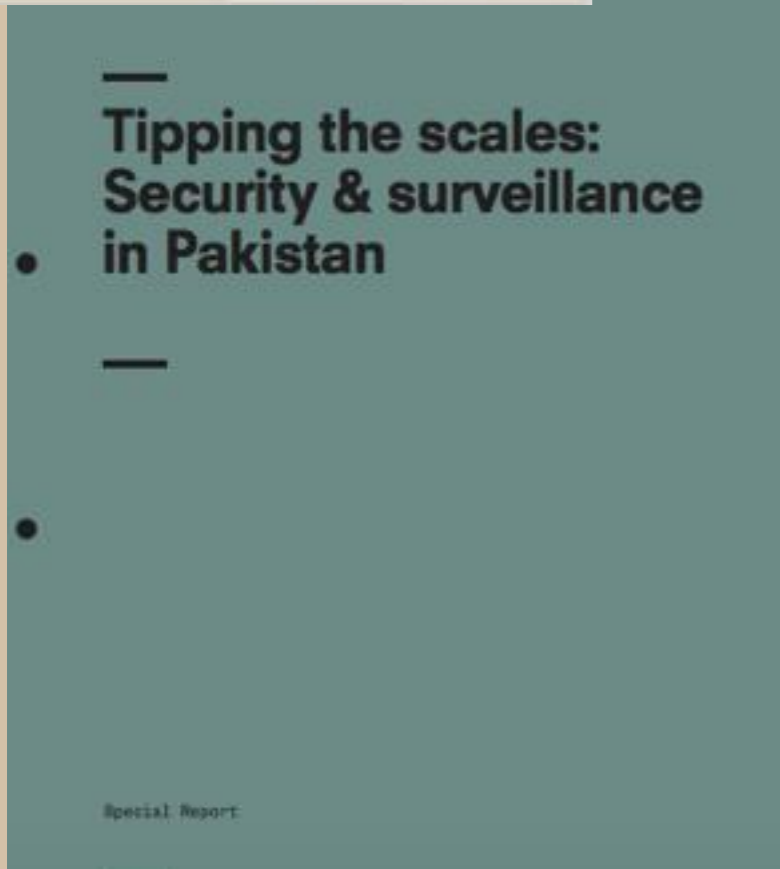

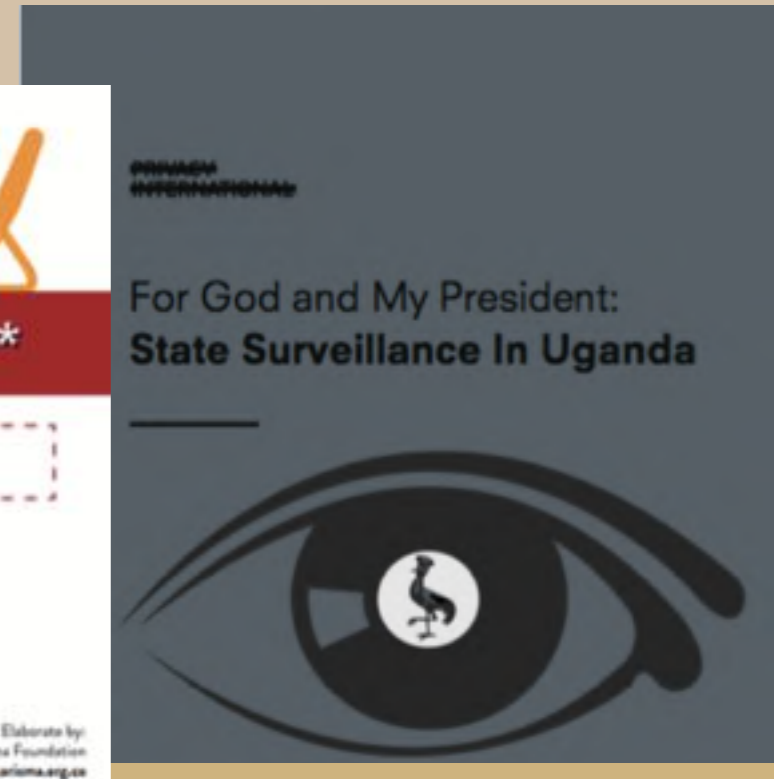

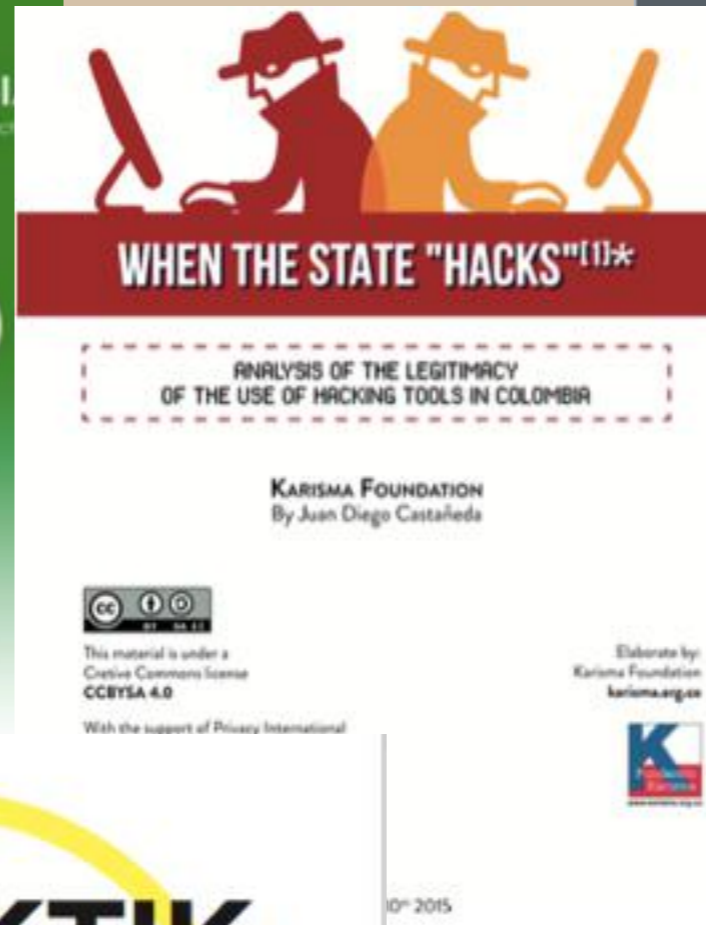

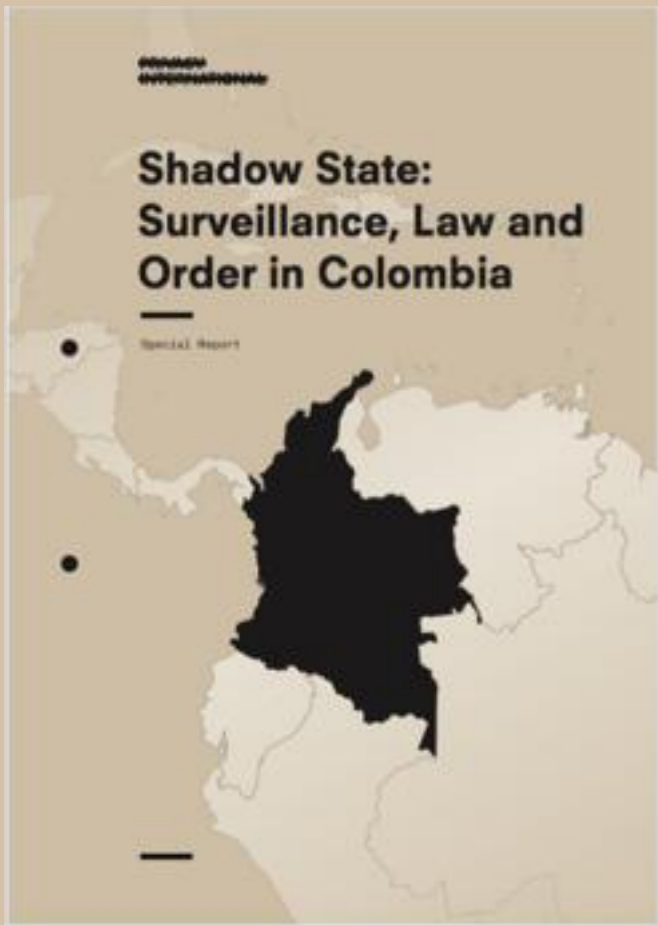

journalists are vulnerable  
surveillance, do you think  
surveilled? what will you

ICT INH PRESSURE 1000000

A world map where the landmasses are black. A horizontal tan banner with the text 'STATE OF PRIVACY' is centered over the map. Several countries are highlighted in a purple color, including Mexico, Central American countries (Guatemala, El Salvador, Honduras, Nicaragua, Costa Rica, Panama), Brazil, Argentina, Chile, Peru, Colombia, Venezuela, Ecuador, and several countries in Africa, Asia, and Oceania.

# STATE OF PRIVACY

New challenges on the horizon involving human rights and technology:

How we engage with our identity.

Inequality, discrimination and gender.

How we govern ourselves.

How we live in and move through our cities.
